Archive Automotive Café: organisation overview

Brand Identity:

- Founded in 2018, Archive Automotive is a specialized vehicle storage, detailing, and sales facility. It also features a modern café overlooking a showroom of exotic and timeless cars, creating a unique atmosphere for car and coffee connoisseurs alike.

Mission and Vision statement:

Archive Automotive Café is a premium community hub for Cape Town's car connoisseurs, where a passion for timeless automotive machinery meets modern hospitality.

Target Audience:

The main audience comprises collectors and investors who would require the high-end services for their cars, such as detailing and storage, whilst the secondary audience would be the hobbyists and car enthusiasts who frequent the shop for the café and views.

Website goals and Objectives:

- Dedicated café Navigation: Allows users to find out about the café without having to read through a paragraph to find the hyperlink to the café's page.
- 4 column-grid layouts: keeps the interface familiar and brand identity cohesive.

Current website analysis:

About Us

All dealerships care about their customers, at least on paper, but The Archive takes customer experience to a whole new level. Customer centricity is what has distinguished The Archive since inception, and what continues to drive our success and following in the exotic and collector car market. The Archive instills an internal policy for the customers bill of rights, such as honest information, without evasiveness, and to adopt "a be invited to buy without feeling pressured approach".

On the back of these well marketed values comes the ability for the customer to trust and to conclude deals on face value nation wide at the other end of a telephone. Beyond this powerful central set of values, The Archive goes the extra mile to make being at the dealership a pleasant experience. We have a full-service [coffee shop](#) with a viewing platform to be able to open up the entire experience offered by The Archive to any member of the public. Sure, not every dealership can afford such luxuries, but it's a testament to the Archive's dedication to the customer that we invest heavily in customer experience.

The website's biggest weakness is that the coffee shop's page is a hyperlink in paragraph 2 of the about us page instead of having its own page

The Archive is not just a car dealership, we are a community for like minded enthusiast. We see the value in nurturing an interest in the automotive industry by paying it forward. We have taken a stand to not only turn the industry on its head in terms of honest and transparent transaction strategies but we see the value in giving a leg up to other professions that in turn grow our brand. We believe we are the first in our sector to employ full time professional photographers and videographers to grow and build our social media digital marketing strategy and to create a standard whereby these growing ancillary professions can develop independently to steer and grow an ever evolving digital and social media experience that we've come to relay on to successfully

Figure 1: Archive Automotive website

- The website's strength is that even though the café's page is a hyperlink but once clicked it does have the same familiarity as the main website pages, carrying the brand identity across all navigation pages.
- The current website lacks a dedicated navigation page for the café. This ultimately negatively impacts discoverability for the café. By excluding the café from the main menu, the brand misses the opportunity to use the café as a unique selling point in customer experience.

Proposed website features and functionality:

- Navigation links: makes it easily accessible to users
- Atmosphere gallery: keeps the same vibe as the main navigation pages
- Booking/ enquiry form: Allows users/ customers to book the place

Design and user experience:

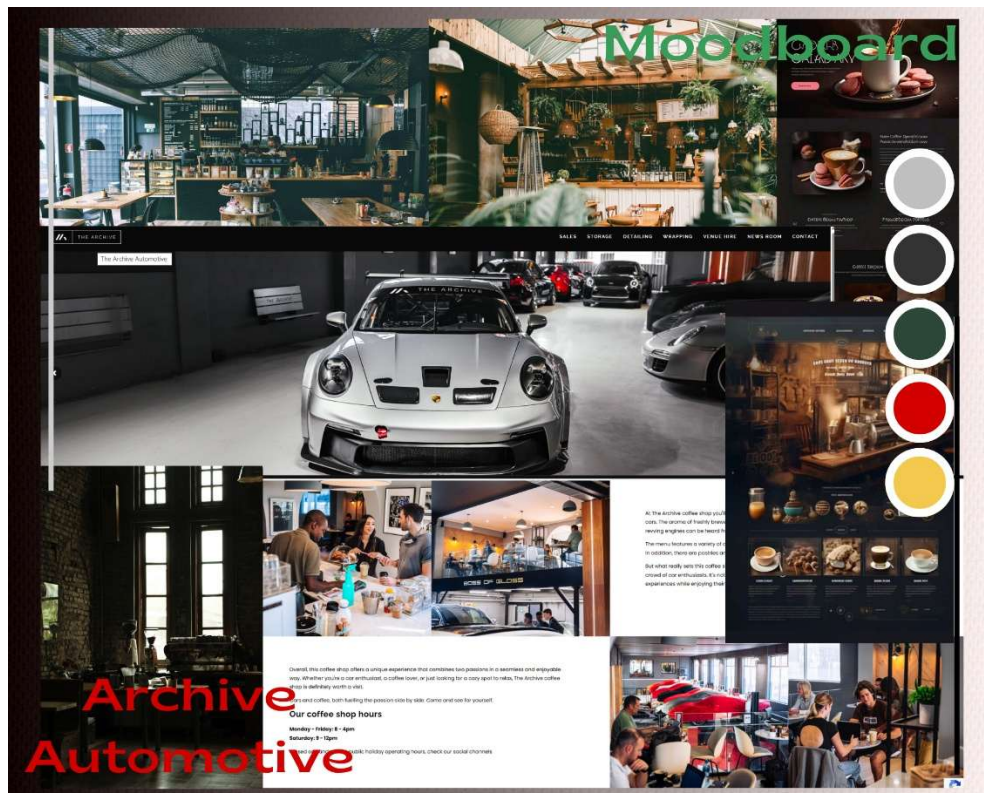

Figure 2 Archive Automotive Cafe mood board (Author's own, 2026)

Colour Palette:

Colour Name	Hex Code	Category
Industrial Charcoal	#1A1A1A	Background
Deep Forest Green	#2D3E35	Background
Neutral Concrete	#E0E0E0	Text
Automotive Red	#CC0000	Accent
Muted Gold	#D4AF37	Accent

Typography:

- Headings: Bebas Neue, to convey the luxury car magazine vibe and keep it brand relative.
- Body: Montserrat, for a clean modern look, to emulate that clean look the main pages give.

Layout strategy:

- To integrate the café seamlessly in the archive automotive ecosystem, the same 4 column modular framework will be implemented, which will mirror the same precision, order and industrial look that the rest of the site follows.

Low-fidelity wireframe:

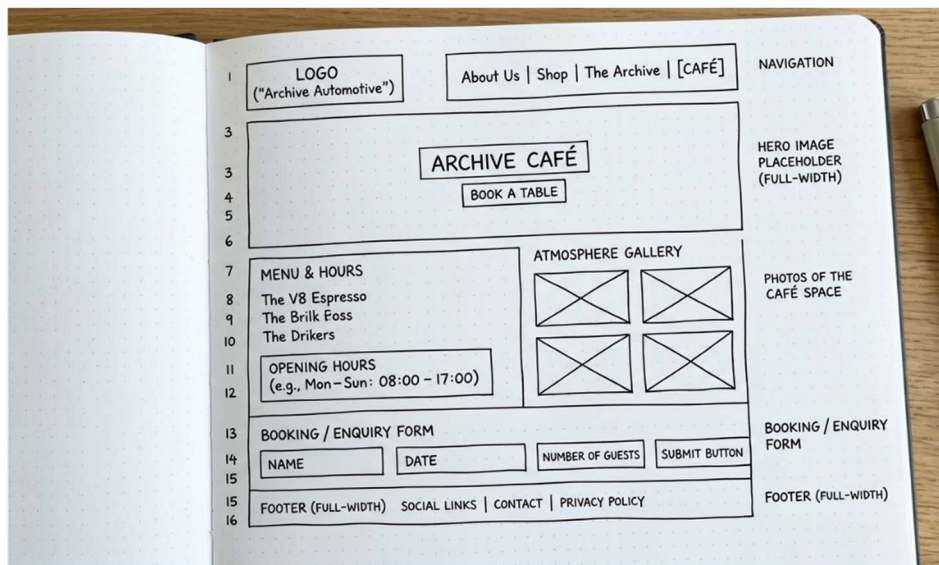

Figure 3 Lo-Fi wireframe for Archive Automotive Cafe

Technical Requirements:

Hosting and Domain requirements:

- Thearchive.co.za will utilize managed shared cloud hosting, outsourcing infrastructure for server maintenance, security patching, and scaling. It employs SSL/TLS certificates to encrypt sensitive data during transfers, ensuring the protection of payment details and login credentials. The website guarantees a 99.9% uptime SLA, ensuring constant accessibility, which is essential for product launches and sales.

Programming languages and Frameworks:

Layer	Technology
Structure	HTML
Styling	CSS
Interactivity	JavaScript

Timeline and Milestones:

Phase	Focus area
Part 1: 20 th April	Research, sitemap, and wireframe
Part 2: 29 th May	Finalize code and project files

Budget:

- Development: R8000 to R12000,
hosting: R200 to R400 monthly.
Maintenance: R300 to R500 per month
Total budget estimate: R8500 to R12900.
